Teachers Data

Ma'am Namra

Ma'am Namra is a dedicated and skilled faculty member in the Computer Science department at the University of Sialkot. With her expertise in Information Security, Digital Marketing, Parallel and Distributed Computing, and Theory of Programming, she brings a wealth of knowledge to her students. She is passionate about imparting essential skills in the ever-evolving tech landscape, preparing her students for success in their careers. Her teaching style encourages critical thinking, problem-solving, and real-world applications of computer science concepts, making her classes both engaging and informative.

Mam Namra teaches following subjects:

- Information Security
- Digital Marketing
- Parallel and Distributed Computing
- Theory of Programming

Ma'am Sadaf

Ma'am Sadaf is a distinguished senior faculty member in the Computer Science department. With her extensive expertise and deep understanding of computer science, she delivers high-quality education in key foundational subjects. She specializes in:

- **Theory of Automata**
- **Compiler Construction**
- **Operating Systems**

Ma'am Sadaf's teaching style is known for its clarity and practical approach, helping students gain a strong grasp of these complex topics. Through her guidance, students are well-prepared to excel in both academic and professional pursuits in the field of computer science.

Sir Waleed

Sir Waleed is a highly skilled faculty member specializing in mobile app development. With a passion for technology, he imparts knowledge in various programming subjects, equipping students with practical skills and theoretical understanding.

He teaches the following courses:

- **Mobile App Development**
- **Web Development**
- **Theory of Programming**
- **Programming Fundamentals**

Sir Waleed is dedicated to preparing students for the fast-evolving tech world, providing both technical expertise and industry insights.
